The shares of our Common Stock being offered by the Selling Stockholder may be issued pursuant to the Securities Purchase Agreements, dated June 30, 2023 (the “June Purchase Agreement”), August 2, 2023 (the “August Purchase Agreement”) and September 26, 2023 (the “September Purchase Agreement” and, together with the June Purchase Agreement and the August Purchase Agreement, the “Purchase Agreements”), respectively, that we entered into with YA. The shares of Common Stock included in this prospectus consist of (i) shares of Common Stock that may be issued under the June Purchase Agreement pursuant to convertible debentures in an aggregate principal amount of \$26.6 million (the “June Initial Debenture”), (ii) shares of Common Stock that may be issued under the August Purchase Agreement pursuant to convertible debentures in an aggregate principal amount of \$27.9 million (the “August Initial Debenture”), (iii) shares of Common Stock that may be issued under the September Purchase Agreement pursuant to convertible debentures in an aggregate principal amount of \$15.0 million (the “September Initial Debenture” and, together with the June Initial Debenture and the August Initial Debenture, the “Initial Debentures”), (iv) shares of Common Stock that may be issued pursuant to a warrant issued under the June Purchase Agreement (the “June Initial Warrant”) to purchase 49,637,448 shares of Common Stock at an exercise price of \$0.5358, (v) shares of Common Stock that may be issued pursuant to a warrant issued under the August Purchase Agreement (the “August Initial Warrant”) to purchase 49,637,448 shares of Common Stock at an exercise price of \$0.5358, and (vi) shares of Common Stock that may be issued pursuant to a warrant issued under the September Purchase Agreement (the “September Initial Warrant” and, together with the June Initial Warrant and the August Initial Warrant, the “Initial Warrants”) to purchase 27,995,520 shares of Common Stock at an exercise price of \$0.5358. We cannot predict the total number of shares that will be issued pursuant to the Initial Debentures or the Initial Warrants. The shares being registered under this prospectus relating to the June Purchase Agreement are in addition to the shares previously registered in the Form S-3 filed on August 4, 2023 and declared effective on August 15, 2023 relating to 149,637,448 shares.

We are not selling any securities under this prospectus and will not receive any of the proceeds from the sale of our Common Stock by the Selling Stockholder. However, we have received approximately \$62.5 million in aggregate proceeds from the sale of the Initial Debentures to YA, and may receive up to approximately \$68.2 million in proceeds upon payment of the exercise price of the Initial Warrants, from time to time after the date of this prospectus. The Initial Debentures are convertible at YA’s option into a number of shares of our Common Stock, equal to the applicable Initial Debenture’s conversion amount (as defined below) divided by the lower of (a) \$0.50 per share and (b) 95% of the lowest daily volume-weighted average price of the Common Stock during the five consecutive trading days immediately preceding the applicable conversion date (the “Variable Conversion Price”), but not lower than \$0.10 per share (the “Floor Price”). The June Initial Debenture and the August Initial Debenture may be converted in whole or in part, at any time and from time to time. The September Initial Debenture may be converted in whole or in part, at any time and from time to time, subject to the Exchange Cap (as defined herein). See “Summary — The Offering.” The conversion amount with respect to any requested conversion will equal the principal amount requested to be converted plus all accrued and unpaid interest on the Initial Debentures as of such conversion (the “Conversion Amount”). The Initial Warrants are immediately exercisable.

See the sections titled “The YA Transactions” for a description of the transactions contemplated by the Purchase Agreements and “Selling Stockholder” for additional information regarding YA.

The Selling Stockholder may sell the shares of our Common Stock included in this prospectus in a number of different ways and at varying prices. We provide more information about how the Selling Stockholder may sell the shares in the section entitled “Plan of Distribution.” Though we have been advised by YA that it purchased the Initial Debentures and the Initial Warrants for its own account, for investment purposes in which it takes investment risk (including, without limitation, the risk of loss), and without any view or intention to distribute securities in violation of the Securities Act of 1933, as amended (the “Securities Act”), or any other applicable securities laws, the SEC may take the position that YA is deemed an “underwriter” within the meaning of Section 2(a)(11) of the Securities Act and any profits on the sales of shares of our Common Stock by YA and any discounts, commissions or concessions received by YA is deemed to be underwriting discounts and commissions under the Securities Act.

The Selling Stockholder will pay all brokerage fees and commissions and similar expenses in connection with the offer and sale of the shares by the Selling Stockholder pursuant to this prospectus. We will pay the expenses (except brokerage fees and commissions and similar expenses) incurred in registering under the Securities Act the offer and sale of the shares included in this prospectus by the Selling Stockholder. See “Plan of Distribution.”

On September 26, 2023, we entered into the September Purchase Agreement in connection with the issuance and sale by us of the September Initial Debenture, which consists of convertible debentures in an aggregate principal amount of \$15.0 million, and pursuant to which the Company granted YA an option (the “September Option”) to purchase additional convertible debentures in an aggregate principal amount of up to \$30.0 million subject to the terms and conditions set forth in the September Purchase Agreement (the “September Option Debenture,” and together with the September Initial Debenture, the “September Convertible Debentures”). The issuance of the September Initial Debenture and the September Initial Warrant was exempt from registration pursuant to Section 4(a)(2) of the Securities Act. YA represented to us that it is an “accredited investor” as defined in Rule 501 of the Securities Act and that each of the September Initial Debenture and the September Initial Warrant was acquired for investment purposes and not with a view to, or for sale in connection with, any distribution thereof.

In addition, in connection with the September Purchase Agreement, the Company issued to YA the September Initial Warrant to purchase 27,995,520 shares of Common Stock at an exercise price of \$0.5358. YA did not exercise the September Option, which expired November 3, 2023.

This prospectus relates to the offer and sale by YA of shares of Common Stock issuable upon conversion of the September Initial Debenture and the shares underlying the September Initial Warrant. We may also file one or more separate registration statements if the conversion of the September Initial Debenture and/or exercise of the September Initial Warrant results in the issuance of shares exceeding the number being registered under this prospectus. See “The YA Transactions — September Convertible Debentures” for additional discussion.

YA represented to us that it is an “accredited investor” as defined in Rule 501 of the Securities Act and that each of the August Initial Debenture and the August Initial Warrant was acquired for investment purposes and not with a view to, or for sale in connection with, any distribution thereof.

In addition, in connection with the August Purchase Agreement, the Company issued to YA the August Initial Warrant to purchase 49,637,448 shares of Common Stock at an exercise price of \$0.5358. The issuance of the June Initial Debenture and the June Initial Warrant was exempt from registration pursuant to Section 4(a)(2) of the Securities Act. YA represented to us that it is an “accredited investor” as defined in Rule 501 of the Securities Act and that each of the June Initial Debenture and the June Initial Warrant was acquired for investment purposes and not with a view to, or for sale in connection with, any distribution thereof.

In addition, in connection with the June Purchase Agreement, the Company issued to YA the June Initial Warrant to purchase 49,637,448 shares of Common Stock at an exercise price of \$0.5358. If YA had exercised the June Option, the Company would have issued to YA an additional warrant (the “June Option Warrant,” and together with the June Initial Warrant, the “June Warrants”) for a number of shares of Common Stock determined by dividing the principal amount so exercised (up to \$53.2 million) by 0.5358. In addition to the above, this prospectus relates to the offer and sale by YA of shares of Common Stock issuable upon conversion of the June Initial Debenture and the shares underlying the June Initial Warrant. If we are unable to obtain sufficient funding or do not have access to capital, we may not be able to execute our business plans and our prospects, financial condition and results of operations could be materially adversely affected.

We have experienced operating losses, and we expect to continue to incur operating losses as we implement our business plans. We expect our capital expenditures to continue to be significant in the foreseeable future as we expand our business. We expect to expend capital with significant outlays directed both toward bringing our current vehicle programs to market as well as developing additional vehicles, along with related products and service offerings. The fact that we have a limited operating history means we have limited historical data on the demand for our EVs and other products. As a result, our capital requirements are uncertain and actual capital requirements may be different from those we currently anticipate. In addition, new opportunities for growth in future product lines and markets may arise and may require additional capital.

As an early-stage growth company, our ability to access capital is critical. We expect that we will need to raise additional capital in order to continue to execute our business plans in the future, and we plan to seek additional equity and/or debt financing, including by offering additional equity, and/or equity-linked securities, through one or more credit facilities and potentially by offering debt securities, to finance a portion of our future expenditures.

The sale of additional equity or equity-linked securities could dilute our stockholders. The incurrence of indebtedness would result in increased debt service obligations and could result in operating and financing covenants that would restrict our operations or our ability to pay dividends to our stockholders. Our ability to obtain the necessary additional financing to carry out our business plans or to refinance, if necessary, any outstanding debt when due is subject to a number of factors, including general market conditions and investor acceptance of our business model. These factors may make the timing, amount, terms and conditions of such financing unattractive or unavailable to us. If we are unable to raise sufficient funds on favorable terms, we may have to significantly reduce our spending, delay or cancel our planned activities or substantially change our corporate structure. We might not be able to obtain any such funding or we might not have sufficient resources to conduct our business as projected, both of which could mean that we would be forced to curtail or discontinue our operations and our prospects, financial consolidated results of operations could be materially adversely affected, in which case our investors could lose some or all of their investment.

Our stock price may be volatile or may decline regardless of our operating performance, and if YA converts some or all of its June Convertible Debentures, August Convertible Debentures or September Convertible Debentures, or exercises some or all of its June Warrants, August Warrants or September Warrants, YA may not be able to or want to sell the resulting shares that it receives at a favorable price.

The stock market generally, and our Common Stock in particular, has experienced price and volume fluctuations. As a result of this volatility, YA might not be able to sell any Common Stock received upon

conversion of any June Convertible Debentures, August Convertible Debentures or September Convertible Debentures, or exercise of its June Warrants, August Warrants or September Warrants, at a favorable price. The market price for our Common Stock might continue to fluctuate significantly in response to various factors, some of which are beyond our control. These factors include, but are not limited to:

- changes to the electric car industry, including demand and regulations;
- our ability to compete successfully against current and future competitors;
- competitive pricing pressures;
- our ability to obtain working capital financing;
- additions or departures of key personnel;
- sales of our common stock;
- our ability to execute our growth strategy;
- operating results that fall below expectations;
- loss of any strategic relationship;
- regulatory developments; and
- economic and other external factors.

In addition, the stock market in general has experienced significant price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of particular companies. These fluctuations might be even more pronounced in the new trading market for our stock. Additionally, securities class action litigation has often been instituted against companies following periods of volatility in the overall market and in the market price of a company's securities. This litigation, if instituted against us, could result in substantial costs, divert our management's attention and resources, and harm our business, operating results, and financial condition.

Substantial blocks of our Common Stock may be sold into the market as a result of the securities sold to YA under the Purchase Agreements, which may cause the price of our Common Stock to decline.

The price of our Common Stock could decline if there are substantial sales of shares of our Common Stock, if there is a large number of shares of our Common Stock available for sale, or if there is the perception that these sales could occur.

On June 30, 2023, we entered into the June Purchase Agreement with YA. Pursuant to the June Purchase Agreement, we issued to YA the June Initial Debenture and the June Initial Warrant. The June Initial Debenture will mature on August 30, 2024, and may be extended at YA's option. The June Initial Debenture is convertible at the option of YA. The June Initial Warrant is immediately exercisable and will expire on June 30, 2028. In addition, the Company granted YA the June Option to purchase the June Option Debenture in an aggregate principal amount up to \$53.2 million subject to the terms and conditions set forth in the June Purchase Agreement. YA did not exercise the June Option, which expired October 13, 2023.

Further, on August 2, 2023, we entered into the August Purchase Agreement with YA. Pursuant to the August Purchase Agreement, we issued to YA the August Initial Debenture and the August Initial Warrant. The August Initial Debenture will mature on October 2, 2024, and may be extended at YA's option. The August Initial Debenture is convertible at the option of YA. The August Initial Warrant is immediately exercisable and will expire on August 2, 2028. In addition, the Company granted YA the August Option to purchase the August Option Debenture in an aggregate principal amount up to \$53.2 million subject to the terms and conditions set forth in the August Purchase Agreement. YA did not exercise the August Option, which expired November 3, 2023.

Further, on September 26, 2023, we entered into the September Purchase Agreement with YA. Pursuant to the September Purchase Agreement, we issued to YA the September Initial Debenture and the September Initial Warrant. The September Initial Debenture will mature on November 26, 2024, and may be extended at YA's option. The September Initial Debenture is convertible at the option of YA. The September

Initial Warrant is immediately exercisable and will expire on September 26, 2028. In addition, the Company granted YA the September Option to purchase the September Option Debenture in an aggregate principal amount of up to \$30.0 million subject to the terms and conditions set forth in the September Purchase Agreement. YA did not exercise the September Option, which expired November 3, 2023.

Any issuance of shares of Common Stock pursuant to the Initial Debentures or the Initial Warrants will dilute the percentage ownership of stockholders and may dilute the per share projected earnings (if any) or book value of our Common Stock. Sales of a substantial number of shares of our Common Stock in the public market or other issuances of shares of our Common Stock, or the perception that these sales or issuances could occur, could cause the market price of our Common Stock to decline and may make it more difficult for you to sell your shares at a time and price that you deem appropriate.

It is not possible to predict the actual number of shares we will issue under the Initial Debentures or the Initial Warrants to the Selling Stockholder at any one time or in total, or the actual gross proceeds resulting from those sales.

Under the Purchase Agreements, the Initial Debentures are convertible at YA's option, into a number of shares of Common Stock equal to the applicable Conversion Amount applicable to the Initial Debentures, respectively. In addition, there is no guarantee that YA will exercise the Initial Warrants, in full or in part. Issuance of our Common Stock, if any, to YA under the Purchase Agreements will depend upon market conditions and other factors. YA may ultimately decide to convert all, some or none of the Initial Debentures, and may ultimately decide to exercise all, some or none of the Initial Warrants.

Because the Conversion Amount may be based on the Variable Conversion Price, the shares issued to YA under the Initial Debentures may fluctuate based on the market prices of our Common Stock. It is not possible for us to predict, as of the date of this prospectus and prior to any such issuance, the Conversion Amount YA will request, if any, and the number of shares of Common Stock that we will issue to YA under the Initial Debentures.

In addition, unless we obtain stockholder approval, we will not be able to issue shares of Common Stock in excess of the Exchange Cap under the September Purchase Agreement in accordance with applicable Nasdaq rules. Depending on the market prices of our Common Stock in the future, this could be a significant limitation on the ability of YA to exercise the September Initial Warrant, or could affect YA's decision whether to convert any September Convertible Debentures. Thus, there is no guarantee we will receive additional proceeds from the September Purchase Agreement.

If, based on the price of our Common Stock, more than 267,632,968 shares will be issuable to YA under the Initial Debentures and the Initial Warrants, collectively, and the Exchange Cap provisions (which apply solely to shares of our Common Stock issuable under the September Purchase Agreement) and other limitations in the Purchase Agreements would allow us to do so, we would need to file with the SEC one or more additional registration statements to register under the Securities Act the resale by YA of any such additional shares of our Common Stock and the SEC would have to declare such registration statement or statements effective before we could sell additional shares.

Further, the resale by YA of a significant amount of shares registered for resale in this offering at any given time, or the perception that these sales may occur, could cause the market price of our Common Stock to decline and to be highly volatile.

Investors who buy shares at different times will likely pay different prices.

Pursuant to the Initial Debentures, the number of shares of Common Stock issuable thereunder may vary. YA may resell all, some or none of such shares at any time or from time to time in its discretion and at different prices. As a result, investors who purchase shares from YA in this offering at different times will likely pay different prices for those shares, and so may experience different levels of dilution and in some cases substantial dilution and different outcomes in their investment results. Investors may experience a decline in the value of the shares they purchase from YA in this offering as a result of future sales made by us to YA at prices lower than the prices such investors paid for their shares in this offering.

We will have broad discretion in the use of the net proceeds from this offering and may not use them effectively.

We currently intend to use the net proceeds from the offering of securities under this prospectus for working capital and general corporate purposes, as described in the section of this prospectus entitled “Use of Proceeds.” We will have broad discretion in the application of the net proceeds in the category of general corporate purposes and investors will be relying on the judgment of our management regarding the application of the proceeds of this offering.

The precise amount and timing of the application of these proceeds will depend upon a number of factors, such as our funding requirements and the availability and costs of other funds. As of the date of this prospectus, we cannot specify with certainty all of the particular uses for the net proceeds to us from this offering. Depending on the outcome of our efforts and other unforeseen events, our plans and priorities may change and we may apply the net proceeds of this offering in different manners than we currently anticipate.

The failure by our management to apply these funds effectively could harm our business, financial condition and results of operations. Pending their use, we may invest the net proceeds from this offering in short-term, interest-bearing instruments. These investments may not yield a favorable return to our securityholders.

If we do not maintain a current and effective prospectus relating to the Common Stock issuable upon conversion of the June Convertible Debentures, the August Convertible Debentures or the September Convertible Debentures, YA may be unable to convert the June Convertible Debentures, the August Convertible Debentures or the September Convertible Debentures.

If we do not maintain a current and effective prospectus relating to the shares of Common Stock issuable upon conversion of the June Convertible Debentures, the August Convertible Debentures or the September Convertible Debentures, respectively, at the time that YA wishes to convert such June Convertible Debentures, August Convertible Debentures or September Convertible Debentures, we will be unable to issue freely tradable shares of Common Stock upon such conversions. As a result, YA may not receive Common Stock upon conversion or may not be able to sell any issued Common Stock. Although this could constitute an event of default under the June Convertible Debentures, the August Convertible Debentures or the September Convertible Debentures, respectively, entitling holders to accelerate payment of the June Convertible Debentures, the August Convertible Debentures or the September Convertible Debentures, respectively, there can be no assurance that we will be able to pay such accelerated amounts at such time, or such payments could be less economically advantageous than if the holder had received freely tradable shares upon conversion.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus, any prospectus supplement and the documents incorporated by reference herein or therein contain forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act, that are subject to risks and uncertainties. We have based these forward-looking statements on our current expectations and projections about future events. All statements, other than statements of present or historical fact are forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as “anticipate,” “believe,” “continue,” “could,” “estimate,” “expect,” “intends,” “may,” “might,” “plan,” “possible,” “potential,” “predict,” “project,” “should,” “will,” “would” or the negative of such terms or other similar expressions. These forward-looking statements are subject to known and unknown risks, uncertainties and assumptions about us that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by such forward-looking statements.

Forward-looking statements are subject to known and unknown risks, uncertainties and assumptions that could cause actual results to differ materially from those projected or otherwise implied by the forward-looking statements. Below is a summary of certain material factors that may make an investment in our Common Stock speculative or risky.

- We are an early stage company with a history of losses and expect to incur significant expenses and continuing losses for the foreseeable future.
- We may be unable to adequately control the costs associated with our operations.
- Our current business plans require a significant amount of capital. If we are unable to obtain sufficient funding or do not have access to capital, we will be unable to execute our business plans and our prospects, financial condition and results of operations could be materially adversely affected.
- Our management has performed an analysis of our ability to continue as a going concern and has identified substantial doubt about our ability to continue as a going concern. If we are unable to obtain sufficient additional funding or do not have access to additional capital, we will be unable to execute our business plans and could be required to terminate or significantly curtail our operations.
- We have been notified by The Nasdaq Stock Market LLC of our failure to comply with certain continued listing requirements and, if we are unable to regain compliance with all applicable continued listing requirements and standards of Nasdaq, our Common Stock could be delisted from Nasdaq, which would have an adverse impact on the trading, liquidity, and market price of our Common Stock.
- The issuance of shares of our Common Stock upon the conversion of the securities issued pursuant to the Purchase Agreements and other securities purchase agreements entered into by the Company will continue to increase the number of shares eligible for future resale in the public market and result in dilution to our stockholders.
- Adverse developments affecting the financial services industry, such as actual events or concerns involving liquidity, defaults or non-performance by financial institutions could adversely affect our current financial condition and projected business operations.
- We have not achieved positive operating cash flow and, given our projected funding needs, our ability to generate positive cash flow is uncertain.
- Our financial results may vary significantly from period to period due to fluctuations in our operating costs, product demand and other factors.
- Our limited operating history makes evaluating our business and future prospects difficult and increases the risk of your investment.
- We previously identified material weaknesses in our internal control over financial reporting. Although the weaknesses previously identified have been remediated, if we identify additional material weaknesses in the future or otherwise fail to maintain an effective system of internal controls, we may not be able to accurately or timely report our financial condition or results of operations, which may adversely affect our business and stock price.

- If we fail to manage our growth effectively, we may not be able to design, develop, manufacture, market and launch our EVs successfully.
- We are highly dependent on the services of our key employees and senior management and, if we are unable to attract and retain key employees and hire qualified management, technical and EV engineering personnel, our ability to compete could be harmed.
- We face significant barriers to manufacture and bring our EVs to market, and if we cannot successfully overcome those barriers our business will be negatively impacted.
- Customers who have committed to purchase significant amounts of our vehicles may purchase significantly fewer vehicles than we currently anticipate or none at all. In that case, we will not realize the revenue we expect from these customers.
- Our ability to develop and manufacture EVs of sufficient quality and appeal to customers on schedule and on a large scale is unproven and still evolving.
- We will depend initially on revenue generated from a single EV model and in the foreseeable future will be significantly dependent on a limited number of models.
- There is no guarantee that we will be able to develop our software platform, Canoo Digital Ecosystem, or that if we are able to develop it, that we will obtain the revenue and other benefits we expect from it.
- We may fail to attract new customers in sufficient numbers or at sufficient rates or at all or to retain existing customers.
- If our EVs fail to perform as expected, our ability to develop, market and deploy our EVs could be harmed.
- Our distribution model may expose us to risk and if unsuccessful may impact our business prospects and results of operations.
- We face legal, regulatory and legislative uncertainty in how our go-to-market models will be interpreted under existing and future law, including the potential inability to protect our intellectual property rights, and we may be required to adjust our consumer business model in certain jurisdictions as a result.
- If we fail to successfully build and tool our manufacturing facilities and/or if we are unable to establish or continue a relationship with a contract manufacturer or if our manufacturing facilities become inoperable, we will be unable to produce our vehicles and our business will be harmed.
- We may not be able to realize the non-dilutive financial incentives offered by the States of Oklahoma and Arkansas where we will develop our own manufacturing facilities.
- Developing our own manufacturing facilities for production of our EVs could increase our capital expenditures and delay or inhibit production of our EVs.
- We have no experience to date in high volume manufacture of our EVs.
- We may experience significant delays in the design, production and launch of our EVs, which could harm our business, prospects, financial condition and operating results.
- Increases in costs, disruption of supply or shortage of raw materials and other components used in our vehicles, in particular lithium-ion battery cells, could harm our business.
- We depend upon third parties to manufacture and to supply key components and services necessary for our vehicles. We do not have long-term agreements with all of our manufacturers and suppliers, and if these manufacturers or suppliers become unwilling or unable to provide these key components and services we would not be able to find alternative sources in a timely manner and our business would be adversely impacted.
- We are or may be subject to risks associated with strategic alliances or acquisitions and may not be able to identify adequate strategic relationship opportunities, or form strategic relationships, in the future.

- The automotive market is highly competitive and technological developments by our competitors may adversely affect the demand for our EVs and our competitiveness in this industry.
- Our EVs are based on the use of complex and novel steer-by-wire technology that is unproven on a wide commercial scale and rely on software and hardware that is highly technical, and if these systems contain errors, bugs or vulnerabilities, or if we are unsuccessful in addressing or mitigating technical limitations in our systems, our business could be adversely affected.
- We are subject to cybersecurity risks to our operational systems, security systems, infrastructure, integrated software in our EVs and customer data processed by us or third-party vendors.
- Economic, regulatory, political and other events, including the rise in interest rates, heightened inflation, slower growth or recession, issues with supply chain, shortage of labor and the war in Ukraine, adversely affect our financial results.
- Our ability to meet the timelines we have established for production and manufacturing milestones of our EVs is uncertain.

Importantly, the summary above does not address all the risks and uncertainties that we face. Additional discussion of the risks and uncertainties summarized herein, as well as other risks and uncertainties that we face, are disclosed under the sections entitled “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our most recent Annual Report on Form 10-K and subsequent Quarterly Reports on Form 10-Q, which are incorporated by reference herein. The above summary is qualified in its entirety by those more complete discussions of such risks and uncertainties. Given such risks and uncertainties, you should not place undue reliance on forward-looking statements.

We derive many of our forward-looking statements from our operating budgets and forecasts, which are based on many detailed assumptions. While we believe that our assumptions are reasonable, we caution that it is very difficult to predict the impact of known factors, and it is impossible for us to anticipate all factors that could affect our actual results.

All written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by these cautionary statements as well as other cautionary statements that are made from time to time in our other SEC filings and public communications. You should evaluate all forward-looking statements made in this prospectus in the context of these risks and uncertainties. See “Where You Can Find More Information” and “Incorporation of Documents by Reference.”

We caution you that the important factors referenced above may not contain all of the factors that are important to you. We cannot assure you that we will realize the results or developments we expect or anticipate or, even if substantially realized, that they will result in the consequences or affect us or our operations in the way we expect. In addition, even if our results or operations, financial condition and liquidity, and developments in the industry in which we operate are consistent with forward-looking statements, those results or developments may not be indicative of results or developments in subsequent periods. The forward-looking statements included in this prospectus are made only as of the date hereof. We undertake no obligation to update or revise any forward-looking statement as a result of new information, future events or otherwise, except as otherwise required by law.

USE OF PROCEEDS

This prospectus relates to shares of our Common Stock that may be offered and sold from time to time by YA pursuant to the Purchase Agreements. All of the Common Stock offered by the Selling Stockholder pursuant to this prospectus will be sold by the Selling Stockholder for its own account. We will not receive any of the proceeds from these sales.

We have received approximately \$62.5 million in aggregate proceeds pursuant to the issuance of the Initial Debentures, and we may receive up to approximately \$68.2 million for the exercise of the Initial Warrants. However, we are unable to estimate the actual amount of proceeds that we may receive pursuant to the Purchase Agreements, as it will depend on if and to what extent YA exercises the Initial Warrants, our ability to meet any conditions set forth in the Purchase Agreements, market conditions and the price of shares of our Common Stock, among other factors.

We expect to use any proceeds that we receive under the Purchase Agreements for working capital and general corporate purposes. As of the date of this prospectus, we cannot specify with certainty all of the particular uses, and the respective amounts we may allocate to those uses, for any net proceeds we receive. Accordingly, we will retain broad discretion over the use of these proceeds.

DETERMINATION OF OFFERING PRICE

We cannot currently determine the price or prices at which shares of our Common Stock may be sold by the Selling Stockholder under this prospectus as the price will be determined by the prevailing public market price for shares of our Common Stock, by negotiations between the Selling Stockholder and the buyers of our Common Stock in private transactions or as otherwise described in “Plan of Distribution.”

SELLING STOCKHOLDER

This prospectus relates to the possible resale from time to time by YA of up to 267,632,968 shares of our Common Stock that may be issued by us to YA under the Purchase Agreements in connection with the Initial Debentures and the Initial Warrants. For additional information regarding the issuance of Common Stock covered by this prospectus, see the section titled “The YA Transactions” below. We have previously entered into other transactions with YA as further described in this prospectus and current reports which are incorporated by reference into this prospectus. See “Incorporation of Documents by Reference.”

The table below presents information regarding the Selling Stockholder and the shares of Common Stock that it may offer from time to time under this prospectus. This table is prepared based on information supplied to us by the Selling Stockholder. The number of shares in the column “Maximum Number of Shares of Common Stock to be Offered Pursuant to this Prospectus” represents all of the shares of Common Stock that the Selling Stockholder may offer under this prospectus. The Selling Stockholder may sell some, all or none of its shares in this offering. We do not know how long the Selling Stockholder will hold the shares before selling them or if it will exercise the Initial Warrants, and we currently have no agreements, arrangements or understandings with the Selling Stockholder regarding the sale of any of the shares.

Beneficial ownership is determined in accordance with Rule 13d-3(d) promulgated by the SEC under the Exchange Act, and includes shares of Common Stock with respect to which the Selling Stockholder has voting and investment power. The percentage of shares of Common Stock beneficially owned by the Selling Stockholder prior to the offering shown in the table below is based on an aggregate of 719,180,615 shares of our Common Stock outstanding on November 3, 2023. The number of shares that may actually be sold by YA pursuant to the Initial Debentures or that may be exercised under the Initial Warrants may be fewer than the number of shares being offered by this prospectus. The fourth column assumes the sale of all of the shares offered by the Selling Stockholder pursuant to this prospectus.

- (1) Assumes the sale of all shares being offered pursuant to this prospectus, which includes the shares of Common Stock underlying the Initial Debentures and the shares of Common Stock underlying the Initial Warrants. Depending on the market price of our Common Stock and the conversion price of our Common Stock pursuant to the Purchase Agreements, we may need to issue to YA under the Purchase Agreements more shares of our Common Stock than are offered under this prospectus in order to issue to YA the aggregate principal amount of \$69.5 million plus all accrued and unpaid interest of Common Stock pursuant to the Initial Debentures under the Purchase Agreements. If we must issue more than 267,632,968 shares of Common Stock to YA pursuant to the Initial Debentures and the Initial Warrants, collectively, we must first register for resale under the Securities Act such additional shares. The shares being registered under this prospectus relating to the June Purchase Agreement are in addition to the shares previously registered in the Form S-3 filed on August 4, 2023 and declared effective on August 15, 2023 relating to 149,637,448 shares.
- (2) YA is a fund managed by Yorkville Advisors Global, LP (“Yorkville LP”). Yorkville Advisors Global II, LLC (“Yorkville LLC”) is the General Partner of Yorkville LP. All investment decisions for YA are made by Yorkville LLC’s President and Managing Member, Mr. Mark Angelo. The business address of YA is 1012 Springfield Avenue, Mountainside, NJ 07092.

THE YA TRANSACTIONS***September Convertible Debentures***

On September 26, 2023, we entered into the September Purchase Agreement in connection with the issuance and sale by us of the September Initial Debenture, which consists of convertible debentures in an aggregate principal amount of \$15.0 million, and pursuant to which the Company granted YA the September Option to purchase the September Option Debenture in an aggregate principal amount of up to \$30.0 million subject to the terms and conditions set forth in the September Purchase Agreement. The issuance of the September Initial Debenture and the September Initial Warrant was exempt from registration pursuant to Section 4(a)(2) of the Securities Act. YA represented to us that it is an “accredited investor” as defined in Rule 501 of the Securities Act and that each of the September Initial Debenture and the September Initial Warrant was acquired for investment purposes and not with a view to, or for sale in connection with, any distribution thereof.

In addition, in connection with the September Purchase Agreement, the Company issued to YA the September Initial Warrant to purchase 27,995,520 shares of Common Stock at an exercise price of \$0.5358. If YA had exercised the September Option, the Company would have issued to YA the September Option Warrant for a number of shares of Common Stock determined by dividing the principal amount so exercised (up to \$30.0 million) by 0.5358. YA did not exercise the September Option, which expired November 3, 2023.

This prospectus relates to the offer and sale by YA of shares of Common Stock issuable upon conversion of the September Initial Debenture and the shares underlying the September Initial Warrant. If the conversion of the September Initial Debenture and/or exercise of the September Initial Warrant results in the issuance of shares exceeding the number being registered under this prospectus, we could be required to file one or more additional registration statements. See “— Registration Rights Agreements.”

The September Convertible Debentures bear interest at a rate of 3.0% per annum, subject to increase to 15.0% per annum upon the occurrence of certain events of default, including, but not limited to, failing to comply with certain registration requirements in the September Registration Rights Agreement (as defined herein). The September Initial Debenture will mature on November 26, 2024, and may be extended at YA’s option. The September Initial Debenture was purchased at a purchase price equal to 83.5% of aggregate principal amount, resulting in gross proceeds to the Company of approximately \$12.5 million.

The September Convertible Debentures are convertible at the option of the holder into a number of shares of Common Stock, equal to the applicable Conversion Amount (as defined below) divided by the lower of (a) \$0.50 per share (the “Fixed Conversion Price”) and (b) the Variable Conversion Price, but not lower than the Floor Price. The September Convertible Debentures may be converted in whole or in part, at any time and from time to time, subject to the Exchange Cap (as defined below). The Conversion Amount with respect to any requested conversion will equal the principal amount requested to be converted plus all accrued and unpaid interest on the September Convertible Debentures as of such conversion. In addition, no conversion will be permitted to the extent that, after giving effect to such conversion, the holder together with the certain related parties would beneficially own in excess of 9.99% of the Common Stock outstanding immediately after giving effect to such conversion, subject to certain adjustments.

We will not issue any Common Stock upon conversion of the September Convertible Debentures held by YA if the issuance of such shares of Common Stock underlying the September Convertible Debentures would exceed the aggregate number of shares of Common Stock that we may issue upon conversion of the September Convertible Debentures in compliance with our obligations under the rules or regulations of Nasdaq. The Exchange Cap will not apply under certain circumstances, including if the Company obtains the approval of its stockholders as required by the applicable rules of Nasdaq for issuances of shares of Common Stock in excess of such amount. The September Convertible Debentures provide us, subject to certain conditions, with an optional redemption right pursuant to which we, upon 10 trading days’ prior written notice to YA (the “Redemption Notice”), may redeem, in whole or in part, all amounts outstanding under the September Convertible Debentures; provided that the trading price of the Common Stock is less than the applicable Fixed Conversion Price at the time of the Redemption Notice. The redemption amount shall be equal to the outstanding principal balance being redeemed by the Company, plus the

redemption premium of 5.0% of the principal amount being redeemed, plus all accrued and unpaid interest in respect of such redeemed principal amount.

Upon the occurrence of certain trigger events, we will be required to make monthly cash payments of principal in the amount of \$3,750,000 (or such lesser amount as may then be outstanding) plus a premium equal to 5.0% of such principal amount plus all accrued and unpaid interest as of such payment. Such payments will commence 10 trading days following the occurrence of a trigger event and continue on a monthly basis thereafter until the September Convertible Debentures are repaid in full or until the conditions causing the trigger event are addressed in the manner provided for in the September Convertible Debentures.

The September Initial Warrant is immediately exercisable and will expire on September 26, 2028. The September Warrants include customary adjustment provisions for stock splits, combinations and similar events. Prior to obtaining stockholder approval, we may not issue any shares of Common Stock that exceed the number of shares that it may issue pursuant to Nasdaq rules (including, without limitation, the Exchange Cap) under the September Warrants or other warrants subsequently issued to YA.

Under applicable Nasdaq rules and the September Purchase Agreement, in no event may we issue or sell to YA shares of our Common Stock in excess of 128,589,373 shares (which number of shares represents approximately 19.99% of the aggregate number of shares of Common Stock issued and outstanding as of September 26, 2023, the date upon which we entered into the September Purchase Agreement with YA (the “Exchange Cap”), unless we obtain stockholder approval to issue shares of Common Stock in excess of the Exchange Cap. In any event, we may not issue or sell any shares of our Common Stock under the September Purchase Agreement if such issuance or sale would breach any applicable Nasdaq rules. As of October 23, 2023, we have not sold to YA any shares of our Common Stock under the convertible debentures issued in connection with the September Purchase Agreement. There are 128,589,373 remaining shares of Common Stock that may be issued pursuant to the September Purchase Agreement prior to being capped by the Exchange Cap.

August Convertible Debentures

On August 2, 2023, we entered into the August Purchase Agreement in connection with the issuance and sale by us of the August Initial Debenture, which consists of convertible debentures in an aggregate principal amount of \$27.9 million, and pursuant to which the Company granted YA the August Option to purchase the August Option Debenture in an aggregate principal amount of up to \$53.2 million subject to the terms and conditions set forth in the August Purchase Agreement. The issuance of the August Initial Debenture and the August Initial Warrant was exempt from registration pursuant to Section 4(a)(2) of the Securities Act. YA represented to us that it is an “accredited investor” as defined in Rule 501 of the Securities Act and that each of the August Initial Debenture and the August Initial Warrant was acquired for investment purposes and not with a view to, or for sale in connection with, any distribution thereof.

In addition, in connection with the August Purchase Agreement, the Company issued to YA the August Initial Warrant to purchase 49,637,448 shares of Common Stock at an exercise price of \$0.5358. If YA had exercised the August Option, the Company would have issued to YA the August Option Warrant for a number of shares of Common Stock determined by dividing the principal amount so exercised (up to \$53.2 million) by 0.5358. YA did not exercise the August Option, which expired November 3, 2023.

In addition to the above, this prospectus relates to the offer and sale by YA of shares of Common Stock issuable upon conversion of the August Initial Debenture and the shares underlying the August Initial Warrant. If the conversion of the August Initial Debenture and/or exercise of the August Initial Warrant results in the issuance of shares exceeding the number being registered under this prospectus, we could be required to file one or more additional registration statements. See “— Registration Rights Agreements.”

The August Convertible Debentures bear interest at a rate of 3.0% per annum, subject to increase to 15.0% per annum upon the occurrence of certain events of default, including, but not limited to, failing to comply with certain registration requirements in the August Registration Rights Agreement (as defined herein). The August Initial Debenture will mature on October 2, 2024, and may be extended at YA’s option. The August Initial Debenture was purchased at a purchase price equal to 94.0% of aggregate principal amount, resulting in gross proceeds to the Company of approximately \$25.0 million.

The August Convertible Debentures are convertible at the option of the holder into a number of shares of Common Stock, equal to the applicable Conversion Amount divided by the lower of (a) the Fixed Conversion Price and (b) the Variable Conversion Price, but not lower than the Floor Price. The August Convertible Debentures may be converted in whole or in part, at any time and from time to time. The Conversion Amount with respect to any requested conversion will equal the principal amount requested to be converted plus all accrued and unpaid interest on the August Convertible Debentures as of such conversion. In addition, no conversion will be permitted to the extent that, after giving effect to such conversion, the holder together with the certain related parties would beneficially own in excess of 9.99% of the Common Stock outstanding immediately after giving effect to such conversion, subject to certain adjustments.

As a result of approval by our stockholders at the Special Meeting, we may issue any Common Stock upon conversion of the August Convertible Debentures held by YA in compliance with our obligations under the rules or regulations of Nasdaq. The August Convertible Debentures provide us, subject to certain conditions, with an optional redemption right pursuant to which we, upon 10 trading days' prior written notice to YA, may redeem, in whole or in part, all amounts outstanding under the August Convertible Debentures; provided that the trading price of the Common Stock is less than the applicable Fixed Conversion Price at the time of the Redemption Notice. The redemption amount shall be equal to the outstanding principal balance being redeemed by the Company, plus the redemption premium of 5.0% of the principal amount being redeemed, plus all accrued and unpaid interest in respect of such redeemed principal amount.

Upon the occurrence of certain trigger events, we will be required to make monthly cash payments of principal in the amount of \$7,500,000 (or such lesser amount as may then be outstanding) plus a premium equal to 5.0% of such principal amount plus all accrued and unpaid interest as of such payment. Such payments will commence 10 trading days following the occurrence of a trigger event and continue on a monthly basis thereafter until the August Convertible Debentures are repaid in full or until the conditions causing the trigger event are addressed in the manner provided for in the August Convertible Debentures.

The August Initial Warrant is immediately exercisable and will expire on August 2, 2028. The August Warrants include customary adjustment provisions for stock splits, combinations and similar events.

June Convertible Debentures

On June 30, 2023, we entered into the June Purchase Agreement in connection with the issuance and sale by us of the June Initial Debenture, which consists of convertible debentures in an aggregate principal amount of \$26.6 million, and pursuant to which the Company granted YA the June Option to purchase the June Option Debenture in an aggregate principal amount of up to \$53.2 million subject to the terms and conditions set forth in the June Purchase Agreement. YA did not exercise the June Option, which expired October 13, 2023. The issuance of the June Initial Debenture and the June Initial Warrant was exempt from registration pursuant to Section 4(a)(2) of the Securities Act. YA represented to us that it is an "accredited investor" as defined in Rule 501 of the Securities Act and that each of the June Initial Debenture and the June Initial Warrant was acquired for investment purposes and not with a view to, or for sale in connection with, any distribution thereof. In addition, in connection with the June Purchase Agreement, the Company issued to YA the June Initial Warrant to purchase 49,637,448 shares of Common Stock at an exercise price of \$0.5358.

In addition to the above, this prospectus relates to the offer and sale by YA of shares of Common Stock issuable upon conversion of the June Initial Debenture and the shares underlying the June Initial Warrant. If the conversion of the June Initial Debenture and/or exercise of the June Initial Warrant results in the issuance of shares exceeding the number being registered under this prospectus, we could be required to file one or more additional registration statements. The shares being registered under this prospectus relating to the June Purchase Agreement are in addition to the shares previously registered in the Form S-3 filed on August 4, 2023 and declared effective on August 15, 2023 relating to 149,637,448 shares.

The foregoing description of the Purchase Agreements does not purport to be complete and is qualified in its entirety by reference to the full text of the securities purchase agreements, copies of which were filed as exhibits to the Company's Current Reports on Form 8-K filed with the SEC on [September 26, 2023](#), [August 4, 2023](#) and [July 7, 2023](#), respectively, and are incorporated herein by reference.

Short-Selling or Hedging by YA; Pledging of Securities

YA has agreed that, during the term of the Purchase Agreements, respectively, neither YA nor its affiliates will engage in certain short sales or hedging transactions which establish a net short position with respect to our Common Stock. Notwithstanding anything to the contrary contained in the Purchase Agreements, YA may pledge the securities under the Purchase Agreements in connection with a bona fide margin agreement or other loan or financing arrangement that is secured by securities issued under the Purchase Agreements.

Termination of the Purchase Agreements

Pursuant to the Purchase Agreements, YA has the right to terminate its obligations under the Purchase Agreements, respectively, with respect to itself at any time.

Effect of Performance of the Purchase Agreements on our Stockholders

All shares of Common Stock that have been or may be issued by us to YA under the Purchase Agreements pursuant to the conversion of the Initial Debentures or exercise of the Initial Warrants that are being registered under the Securities Act for resale by YA under this prospectus are expected to be freely

tradable. The resale by YA of a significant amount of shares registered for resale in this offering at any given time, or the perception that these sales may occur, could cause the market price of our Common Stock to decline and to be highly volatile. Issuance of our Common Stock, if any, to YA under the Purchase Agreements will depend upon whether YA converts any portion of the Initial Debentures or exercises any amount of the Initial Warrants, market conditions and other factors.

Depending on market prices of shares of our Common Stock, other limitations in the Purchase Agreements and, in the case of the September Convertible Debentures, subject to the Exchange Cap, we may need to issue additional shares to YA under the Purchase Agreements pursuant to the Initial Debentures than are offered under this prospectus in order to issue an aggregate of \$69.5 million plus all accrued and unpaid interest shares to YA. If we choose to do so, we must first register for resale under the Securities Act any such additional shares, which could cause additional substantial dilution to our stockholders. The number of shares ultimately offered for resale under pursuant to the Purchase Agreements is dependent upon the number of shares issuable to YA pursuant to the Initial Debentures and the Initial Warrants.

Registration Rights Agreements

In connection with each of the Purchase Agreements, on the dates thereof, we entered into a registration rights agreement (in the case of the June Purchase Agreement, the “June Registration Rights Agreement,” in the case of the August Purchase Agreement, the “August Registration Rights Agreement,” in the case of the September Purchase Agreement, the “September Registration Rights Agreements” and, together, the “Registration Rights Agreements”) with YA pursuant to which the Registrable Securities (as defined therein) held by YA, subject to certain conditions, will be entitled to registration under the Securities Act. Pursuant to the Registration Rights Agreements, we are required to file with the SEC (at our sole cost and expense) one or more registration statements (the “Registration Statements”) covering the resale by YA of all shares issuable upon exercise of the Initial Warrants, at least 100,000,000 shares of Common Stock issuable upon conversion of the June Initial Debenture, at least 100,000,000 shares of Common Stock issuable upon conversion of the August Initial Debenture, and at least 60,000,000 shares of Common Stock issuable upon conversion of the September Initial Debenture. On August 4, 2023, we filed a Form S-3 in satisfaction of such requirement in the June Registration Rights Agreement. If the Company fails to file the Registration Statements with the SEC by the applicable filing deadline or obtain effectiveness by the applicable effectiveness deadline, or if a Registration Statement fails to remain continuously effective, if the Company is not permitted to utilize a Registration Statement for a certain period of time, or if the Company fails to comply with certain public information requirements, such event will be deemed an Event of Default (as defined in the form of June Convertible Debentures, August Convertible Debentures and September Convertible Debentures, respectively).

PLAN OF DISTRIBUTION

On September 26, 2023, we entered into the September Purchase Agreement in connection with the issuance and sale by us of the September Initial Debenture, which consists of convertible debentures in an aggregate principal amount of \$15.0 million and pursuant to which the Company granted YA the September Option to purchase additional convertible debentures in an aggregate principal amount of up to \$30.0 million subject to the terms and conditions set forth in the September Purchase Agreement.

In addition, in connection with the September Purchase Agreement, the Company issued to YA the September Initial Warrant to purchase 27,995,520 shares of Common Stock at an exercise price of \$0.5358. If YA had exercised the September Option, the Company would have issued to YA the September Option Warrant for a number of shares of Common Stock determined by dividing the principal amount so exercised (up to \$30.0 million) by 0.5358. YA did not exercise the September Option, which expired November 3, 2023.

Further, on August 2, 2023, we entered into the August Purchase Agreement in connection with the issuance and sale by us of the August Initial Debenture, which consists of convertible debentures in an aggregate principal amount of \$27.9 million and pursuant to which the Company granted YA the August Option to purchase additional convertible debentures in an aggregate principal amount of up to \$53.2 million subject to the terms and conditions set forth in the August Purchase Agreement.

In addition, in connection with the August Purchase Agreement, the Company issued to YA the August Initial Warrant to purchase 49,637,448 shares of Common Stock at an exercise price of \$0.5358. If YA had exercised the August Option, the Company would have issued to YA the August Option Warrant for a number of shares of Common Stock determined by dividing the principal amount so exercised (up to \$53.2 million) by 0.5358. YA did not exercise the August Option, which expired November 3, 2023.

Further, on June 30, 2023, we entered into the June Purchase Agreement in connection with the issuance and sale by us of the June Initial Debenture, which consists of convertible debentures in an aggregate principal amount of \$26.6 million and pursuant to which the Company granted YA the June Option to purchase additional convertible debentures in an aggregate principal amount of up to \$53.2 million subject to the terms and conditions set forth in the June Purchase Agreement. YA did not exercise the June Option, which expired October 13, 2023.

In addition, in connection with the June Purchase Agreement, the Company issued to YA the June Initial Warrant to purchase 49,637,448 shares of Common Stock at an exercise price of \$0.5358.

The shares of Common Stock offered by this prospectus are being offered by the Selling Stockholder, YA. We have agreed in each of the Purchase Agreements to provide customary indemnification to YA.

Though we have been advised by YA that it purchased the Initial Debentures and the Initial Warrants for its own account, for investment purposes in which it takes investment risk (including, without limitation, the risk of loss), and without any view or intention to distribute securities in violation of the Securities Act or any other applicable securities laws, the SEC may take the position that YA may be deemed an “underwriter” within the meaning of Section 2(a)(11) of the Securities Act.

It is possible that our shares may be sold from time to time by YA in one or more of the following manners:

- ordinary brokerage transactions and transactions in which the broker solicits purchasers;
- a block trade in which the broker or dealer so engaged will attempt to sell the shares as agent, but may position and resell a portion of the block as principal to facilitate the transaction;
- to a broker-dealer as principal and resale by the broker-dealer for its account;
- in a privately negotiated transaction; or
- a combination of any such methods of sale.

YA has agreed that, during the term of each of the Purchase Agreements, respectively, neither YA nor its affiliates will engage in certain short sales or hedging transactions which establish a net short position with respect to our Common Stock. Notwithstanding anything to the contrary contained in the Purchase

Agreements, YA may pledge the securities under the Purchase Agreements in connection with a bona fide margin agreement or other loan or financing arrangement that is secured by securities issued under the Purchase Agreements.

We have advised YA that it is required to comply with Regulation M promulgated under the Exchange Act. With certain exceptions, Regulation M precludes YA, any affiliated purchasers, and any broker-dealer or other person who participates in the distribution from bidding for or purchasing, or attempting to induce any person to bid for or purchase, any security that is the subject of the distribution until the entire distribution is complete. Regulation M also prohibits any bids or purchases made in order to stabilize the price of a security in connection with the distribution of that security.

These restrictions may affect the marketability of the common shares by YA and any unaffiliated broker-dealer.

We will pay the expenses incident to the registration under the Securities Act of the offer and sale of the shares of our Common Stock covered by this prospectus by the Selling Stockholder. We estimate that our total expenses for the offering will be approximately \$140,709.
